WORLD HAPPENINGS BRIEFLY TOLD

The United States treasury intends to borrow \$2,000,000,000 during the next four months of this year.

Chicago, Scotland, London, Buenos Aires, and other cities of the world in the last year, compared to 1915 in the 25 months preceding the year.

Lord Woolton, British food minister, said the cost of distributing foodstuffs during 1942 was about \$1,500,000,000.

Three new road cars are being built in Northern Rhodesia for African motorists. The cars are being built by highway and state more will be started soon.

Dr. G. C. Huxton of Ottawa, chief of the Dominion geological survey branch has predicted that Edmonton's population would swell to more than 200,000 in the next 25 years.

The world production of sugar in 1942 and 1943 was about 100,000,000 tons each year; 11,000,000 tons were made from sugar beets and 10,000,000 from sugar cane.

Lighthouse overcasts are planned by the British board of trade for the year 1944. They are planned so that no utility overcast be made from about 1944 to 22 about a year.

The United States army's Legion of Merit has been awarded to Brig. Gen. C. G. Huxton of the British army for outstanding service in working with American officers on the expedition for the United Nations.

A special depot has been set up in Geneva, Switzerland, to arrange delivery of Canadian Legion Educational Service Course, including that at the university level, to British prisoners of war in Germany.

Egg Production

All Eggs That Can Be Produced Will Be Needed

Egg production is a vital war requirement and all the eggs that can be produced will be required next year for domestic use and for export to Great Britain. In order to bring increased egg production to the highest pitch, the Dominion Department of Agriculture urges upon poultrymen the importance of maintaining all suitable yielding hens. When the number of good pullets is not sufficient to fill the laying pens, production can be maintained by keeping over old best layers. It is necessary that all laying houses should be fitted to capacity this year.

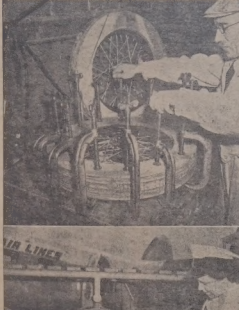

Pullets and yearlings should not be housed in the same pen, nor young pullets with older pullets. The older birds drive the younger ones away from the feed. Yearlings that moult early are usually slow moulting and poor producers, but active, alert, and healthy. They are usually fat and plump, are generally the best layers. Overwintering at all times in all places should be avoided, and plenty of feed and fresh water provided.

High prices are due to the feeding price now and will continue so for some time. It is the duty of all farmers to produce eggs to maintain and increase production.

OUR WAR PRODUCTS

About 90 per cent. of all Canadian war production is delivered directly to the Canadian armed forces at home and abroad. The remainder goes to Britain, the United States, India, Africa, Russia, China, Australia, New Zealand and the South Pacific.

Wooden Wheels Save Rubber

Wooden wheels on trucks save rubber. The truck is a Canadian-made vehicle.

It was a bright light in the Winnipeg shops of Trans-Canada Air Lines when thought of having the line supplied by using wooden wheels on cars. The carmaker shop used to produce cars with wooden wheels. These are fastened together on the wheel-rims and then the wooden tire is slipped on the axle, a strip of canvas applied to it, and the whole thing painted. The finished job is shown below, being handled by one of T.C.A.'s old cargo handlers. The trucks carry baggage, mail and express to the plane.

Blindness in Horses

Many Horses Prematurely Blind

If the eyelids of any horse or on the farm appear swollen or tender, it may be symptoms of a disease known as periodic ophthalmia through which thousands of horses have lost their eyesight in the past few decades. The veterinary authority of the Dominion Department of Agriculture believe that many horses are prematurely blinded by this disease because the owners do not recognize the symptoms in time. The following protective steps should be taken when one or more of the horses on the farm show symptoms of eye trouble; first, have an immediate veterinary diagnosis made; second, keep the affected horses away from the healthy animals, and third, do not breed animals with this disease.

THE REAL THING

Now something is going to make beefsteaks of all water melons, yeast and ammonia. For the last quarter of a century something has been bubbling up at intervals who have tried to feed on tablets and save all the dabbling. We think we'll stick to our beefsteak on the hoof as long as it lasts and as long as our coupons hold out—Lethbridge Herald.

If two men exchange dollars each only has a dollar, but if two men exchange ideas each goes away with two ideas.

SUNDAY SCHOOL LESSON

ISRAEL MARCHES TOWARD CANAAN

Golden text: Come thou with us, and we will do thee good. Numbers 10:20.

Lesson: Numbers 10:1-12:15. Devotional reading: Psalm 122.

THE START FROM SINAI. Numbers 10:1-12:15. The account of the journey of the Israelites in the Wilderness of Sinai extends from Exodus 10:1 to Exodus 12:15. The object of their journey was to reach the Promised Land. The Israelites were to leave Sinai on the first day of the month of Nisan, and to travel by the Red Sea, and to reach the Promised Land in the fourth year of their journey.

It was the second month of the second year of their journey, the twelfth day of the month, that the Lord was taken up from over the tabernacle of the testimony. The Lord was a symbol of God's presence; they were guided by the light of God. As to the nature of the cloud, who was the Lord, and who was the people.

It was an undisciplined rabble that came from Egypt, but now it has become a orderly host. Leave the wilderness, and go into the land which I have sworn to give to your fathers. The Lord said to Moses, "I will give it to you."

The cloud abode in the Wilderness of Sinai. The Lord said to Moses, "I will give it to you." The Lord said to Moses, "I will give it to you." The Lord said to Moses, "I will give it to you."

THE CLOUDS OF THE FUTURE. Numbers 10:1-12:15. The account of the journey of the Israelites in the Wilderness of Sinai extends from Exodus 10:1 to Exodus 12:15. The object of their journey was to reach the Promised Land. The Israelites were to leave Sinai on the first day of the month of Nisan, and to travel by the Red Sea, and to reach the Promised Land in the fourth year of their journey.

Refugees Sign Up

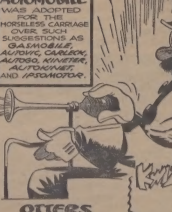

Twelve Refugees Who Have Been War Victims

Nearly four years ago, when Donald and Stanley Hawkins were 14, they came to Canada. They were war refugees. They were born in Poland. They were war refugees. They were born in Poland. They were war refugees. They were born in Poland.

There is a one per cent. concentration of salt in the blood.

Combing Wool Tresses

Combing is not a ritual reserved for blue-bliss show girls or for some young thing's tresses. It is one of the pleasures which the finest toilet articles are prepared for war purposes.

Combing is not a ritual reserved for blue-bliss show girls or for some young thing's tresses. It is one of the pleasures which the finest toilet articles are prepared for war purposes. The combing machine removes all impurities from the cotton rolling of the fuzzy hairs. Cotton is fighting in this war. Besides being used for uniform fabrics, it is used in suit and gait and canvas cloth, aircraft fabrics, war equipment, tire fabric, powder bags, rifle sights and parachute strappings. There are but a few of the war products being turned out in increasing quantities by the cotton mills of Canada.

Shortage Of Wool May Be Vegetarians

People In Netherlands Have To Do Without Heavy Socks

An indication of the great scarcity of wool in the Netherlands is given by an advertisement recently appearing in a Dutch paper, offering socks made of white linen and strong as iron. From time immemorial heavy woolen socks have been deemed by Netherlands the only thing suitable for wear in their heavy wooden shoes. "The Netherlands Anglians" recently said that many factories for woolen garments have been closed for want of wool. They have been closed for want of wool. They have been closed for want of wool. They have been closed for want of wool.

Up-To-The-Minute!

The conclusions that are being reached by economists point strongly to a situation in which it will not be possible to raise as many cows, sheep and hogs as this country has been able to produce in the past. The tremendous increase in costs of labor and commodities makes it imperative that the farms now devoted to the raising of fodder for animals be diverted to the production of food for human beings. In other words, we are faced with the necessity of becoming vegetarians, whether we like that kind of fare or not—Harris Canadian Observer.

BATHER COMPLICATED

"Daddy, may I ask you a question?"

"Yes, son, but it must be a short one."

"If a doctor is doctoring a doctor, does the doctor during the doctoring have to doctor the doctor?"

"Yes, son, but it must be a short one."

"If a doctor is doctoring a doctor, does the doctor during the doctoring have to doctor the doctor?"

"Yes, son, but it must be a short one."

"If a doctor is doctoring a doctor, does the doctor during the doctoring have to doctor the doctor?"

"Yes, son, but it must be a short one."

"If a doctor is doctoring a doctor, does the doctor during the doctoring have to doctor the doctor?"

"Yes, son, but it must be a short one."

"If a doctor is doctoring a doctor, does the doctor during the doctoring have to doctor the doctor?"

"Yes, son, but it must be a short one."

"Yes, son, but it must be a short one."

"If a doctor is doctoring a doctor, does the doctor during the doctoring have to doctor the doctor?"

Health LEAGUE presents TOPICS OF CANADA VITAL INTEREST IMMUNIZATION WEEK

National Immunization Week, during which Canadian parents will be urged to avail themselves of the services to protect their children against dangerous communicable diseases, will be held November 14 to 20. The Health League of Canada has announced that the National Public Health Service is being organized by the Health League, in co-operation with the provincial departments of public health.

Attention will be directed especially to the importance of immunizing children for diphtheria, measles and whooping cough, which continue to take a needless and devastating toll of child life and health in Canada. In fact, two of the previous immunization measures for scarlet fever also will be emphasized.

National Immunization Week will be a development from National Toilet Week held last year, when immunization for diphtheria alone was urged. There were about 8,000 cases of diphtheria in Canada last year, and while mortality from the disease has been reduced with the use of the vaccine, the disease is still a danger with complications, such as heart disease, the league points out.

Public health authorities feel that if a large proportion of the growing generation of children are vaccinated, an epidemic might spread rapidly, with disastrous results. Canadian present freedom from the disease is no justification for relaxing vigilance it has been stressed.

Whooping cough is an important cause of child death and ill-health, which is not sufficiently appreciated, the league said.

Canadian parents will be warned that immunization does not protect against measles or local health departments. The only reason why such widespread attention is being paid to child experience is that prudent parents have protected their children against them, the league stated.

The Eiffel Tower

May Be Scrapped To Provide Needed Metal For Germany

Demolition of the Eiffel Tower in Paris because of its urgent need for metal is being considered by the Germans, reports from Vichy said. It is estimated that metal would dismantle the tower in six months. If the plan is approved, work is expected to begin in October. The Germans already are dismantling the steel tower at Lyons and the suspension bridge at Marseille.

American Warships

A large number of American warships damaged in action have already been put back in service at British ports.

British ports. The ships' stores, fuel oil, water, harbour and stewardess expenses are all included in American warships and merchantmen.

mean a new dedication to the constructive leadership that workers of every kind could give to the nation.

This year more of us are working than ever before. Millions have learned the meaning of labor for the first time. And, with a war to win, there's a new incentive in the air. There's a sense of national purpose that gives zest to the smallest job and makes most of us more than willing to pitch in together.

Will this new sense carry over into the year ahead? The return of peace may simply bring the return of fear that next week there will be no pay envelope. It may show of the ill-intent, bringing riots and revolts.

This must not be. We must go on and not go back. There are doing over there. Our boys are doing over there. There's a new world to be born.

Labor Day can be a unifying occasion—a focus of the constructive teamwork needed to build a sound future with the wealth and work available to all and for the exploitation of none. It can be the day when every Canadian and American who labors on the assembly line, behind the desk, or in the corn and wheat fields can become brother and fighters in this great cause. It is the common property of a whole nation to be used for the common good. No day is so full of hope on the rights of a particular group, but on the privilege of all to work together in the biggest job we have yet tackled.

Labor Day can be teamwork day—the day that everybody joins in working for that one and better world which includes us all and is much bigger than any one of us, or any one nation.
